**NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.**

**GENERAL INSTRUCTIONS**

To apply the gel, remove the cap on the nozzle and touch the tip to the surface to be treated and depress plunger slightly. Recap the dispenser after treatment is completed and return cartridge to the outer pack. Re-apply according to remaining level of infestation, when bait is no longer visibly present. A visual inspection of gel placements is recommended one month after initial treatment.

**INSECTICIDE RESISTANCE WARNING**

For insecticide resistance management, GOLIATH Cockroach Gel is a Group 2C insecticide.

Some naturally occurring insect biotypes resistant to GOLIATH Cockroach Gel and other Group 2C insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if GOLIATH Cockroach Gel or other Group 2C insecticides are used repeatedly. The effectiveness of GOLIATH Cockroach Gel on resistant individuals could be significantly reduced. Since occurrence of resistant individuals is difficult to detect prior to use, BASF Australia Ltd accepts no liability for any losses that may result from the failure of GOLIATH Cockroach Gel to control resistant insects.

GOLIATH Cockroach Gel may be subject to specific resistance management strategies. For further information contact your local supplier, BASF representative or local agricultural department agronomist.

**PROTECTION OF LIVESTOCK, WILDLIFE, AND OTHERS**

Do NOT contaminate streams, rivers or waterways with the chemical or used containers. Do NOT apply this product in any areas easily accessible to children or animals.

**STORAGE AND DISPOSAL**
